## Dental Office Membership Comparison to Dental Insurance Program

Dental office membership plans are a new concept in the profession. Dental patients have dealt with the restrictions of dental insurance plans for years, and expressed their frustrations to us. We have developed an alternative to those insurance plans: The Office Membership Program. The membership program is not insurance, and it is not promoted as such. The membership program is more like a health and fitness club membership. If you are a member, you can use the facility and have benefits because you are a member. With the dental office membership, the benefits include exams, x-rays, and dental cleanings for no charge, a discount on all dental procedures, and no dealing with third parties for predeterminations, delayed payments, or other paperwork hassles. We invite you to read on and compare our office membership to third party dental insurance plans.

### Office Membership Program

In a nutshell, the office membership program offers the following benefits for an annual fee of \$167.00:

- 2 dental cleanings per year
- 2 routine dental exams per year
- Emergency dental exams, as needed (no limit)
- X-ray as needed throughout the year
- A discount of 20 - 25% off all our regular dental fees.

In addition, there are:

- No copayments
- No deductibles
- No pre-existing condition exclusions
- No maximum benefit limits
- No waiting periods
- No predeterminations
- No paperwork delays
- No claim forms
- No treatment exclusions, such as esthetic or implant procedures.
- No treatment plan changes or down-coding.
